

FLORIDA ATLANTIC UNIVERSITY
DIVISION OF RESEARCH
GeneChip Core Facility
Questionnaire

The FAU GeneChip Core Facility is pleased to offer the services for the generation of gene expression profiling using Affymetrix GeneChip® technology. In order to offer you our best service we need to know your projected needs.

Please fill out this questionnaire and email to:

Martha Keegan
Research Coordinator, GeneChip Core Facility
Sanson Life Science Building 1 Room 229
Florida Atlantic University
777 Glades Road, Boca Raton, FL 33435
Email: mkeegan@fau.edu

System Requirements: Pentium 4 at 2.4GHz, 120 GB hard drive, 512 cache (minimum), 1 GB RAM, and CD RW.

Operating System Requirements: Windows 2000 Professional, with WINZip.

Required Imaging Program: Adobe Photoshop.

1) Do you have prior experience in microarray analysis?

2) In the next 6 months period, how many individual experiments will you perform?
What is the number of samples you will analyze?
What is your approximate start date for the generation of data from these experiments?

3) Do you have funds to support?
What is your timeframe for submitting GeneChip data for any grants?

4) Will you require technical support for the preparation of total RNA, cDNA, cRNA, or analysis of data used in these experiments? See <http://www.affymetrix.com> for a description of the methodology.

5) Do you have bioinformatics capability?

6) Please provide contact person information for your laboratory.
