Dear Coaches, Parents and Other Non-competitors:

Science Olympiad is an event that encourages students to learn science, and much is gained through success and failure. To that end, we ask all parents, chaperones, teachers, and other non-competitors to participate according to the following code of conduct. Adults may encourage the students, but not interfere or communicate with them while the competition is underway. If a judge determines that a non-competitor has interfered or help the student during the tournament, the student may be disqualified from the event.

Please ask all adults who attend the competition to read and sign this document. This document must be returned on the day of the competition.

Student participants are expected to compete in tournament events with an honest effort to follow the rules and spirit of the competition. The goal of the competition is to give one's best effort while displaying honesty, integrity, and sportsmanship. We expect all adults to support this effort.

Students, coaches, and parents are expected to display courtesy and respect toward Olympiad officials, other teams, and guests of the Olympiad. Please remember all officials are volunteer specialists in their field and should be extended every courtesy.

Failure to show honesty and/or courtesy by a participant, coach, or guest of the team may result in disqualification of the team from that event and/or from the entire competition.

**PARENT AND TEACHER SIGNATURES**
